

Unika Compact Roller

www.flydor.co.uk

Welcome to the Unika!!

The Unika represents an extremely versatile and compact roller flyscreen system.

Having a more compact cassette means it is as unobtrusive as possible.

Unika sizes; in mm

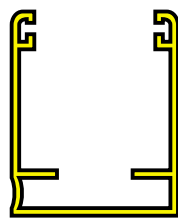

Code Width x Height

Vertical

Accessories: (shaded)
C1230.x (short spring)
C1240.x (long spring)

The Unika is shown reveal fitted, face fixing is an option.

Concealed catch

Colour - Profile and fittings are white, with grey mesh.

Easy to size - Adjustment only requires trimming the side guides and cassette to size.

Easy to fit - Once cut to length, components slot and screw together. The whole blind is fitted simply, requiring only basic tools and DIY knowledge.

Spring assisted, made of durable powder coated aluminium profile, with rotproof PVC coated woven fibreglass mesh, the Unika represents a good quality, long lasting product.

Below - Profiles shown to scale with profile codes: L to R - Side guide, bottom bar and cassette, horizontal guide .
